Shelter to
their Dreams!*

abhayam

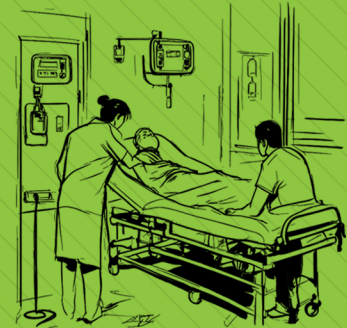

ABOUT US

Abhayam initiated its mission in 2018 with the aim of providing free dialysis to financially challenged patients in Kasaragod, the northernmost part of Kerala, where health systems are limited. In the early phase, two dialysis machines were installed at Thalangara K.S. Abdulla Hospital. As the number of patients steadily increased, and these healthcare initiatives have undergone continuous expansion, particularly in response to the unforeseen challenges posed by the COVID-19 pandemic.

MISSION

At Abhayam, our mission is to be a beacon of hope and healing, by providing empathetic and compassionate dialysis care to individuals facing financial challenges. We are dedicated to erasing barriers to treatment, ensuring every patient receives the life-sustaining care they deserve. Through unwavering commitment to excellence, community engagement, and empathy, we strive to improve the well-being of those affected by kidney disease, fostering a supportive environment that emphasizes dignity of life.

VISION

Our vision extends beyond the confines of a dialysis centre; it encompasses a community where the impact of kidney disease is minimized, and the journey through dialysis becomes a pathway to renewed hope and well-being. Through a commitment to excellence, innovation, and benevolent service, we aim to redefine the narrative around kidney health, promoting a future where the compassionate treatment of today becomes the foundation for healthier, thriving communities tomorrow. We also envision a future where no one is denied access to essential dialysis treatment due to financial constraints.

OUR FACILITIES

Dialysis

Operating 15 machines across three shifts, Abhayam provides dialysis to over 40 patients daily. Offering modern amenities and services, along with a technically proficient team, it stands as one of the best stand-alone dialysis centers in Kerala. Abhayam's reputation is built on unique expertise, creating a facility where trust in its capabilities is complemented by the unmatched quality of care.

Abhayam Canteen

Abhayam is one of the unique institution to introduce the concept of providing meals to patients and their accompanying bystanders, feeding approximately 100 people each day.

OUR SERVICES

Doctor consultation

Consultation with experienced nephrologists are currently available once a week in the outpatient department.

Blood Test

Collaborating with leading laboratories, Abhayam provides monthly, quarterly and serology blood tests to patients. In the future, a lab for this purpose will be set up within the institution.

Palliative Care

Palliative Home Care, offering nursing services to both bedridden and chronic patients at their homes, has been operational since November 2021.

UPCOMING FACILITIES

Upgrade of Dialysis Machines

The present situation is marked by an increase in the number of patients and corresponding facilities are emerging to meet the requirements of the growing number of needy people. Initiatives have begun to increase 10 more machines to enhance the capacity.

Polyclinic

The polyclinic aims to offer OPD services by experienced doctors at affordable charges, alongside a non-profit pharmacy and laboratory. The essential infrastructure for these facilities has already been established.
